Contents of Volume

No. 1

H. Ochiai, K. Kumura and Y. Minamishima (Japan)
Murine cytomegalovirus DNA polymerase: purification, characterization and role in the antiviral activity of acyclovir 1

E.-S. Huang, J.D. Benson, S.-m. Huong, B. Wilson and C. van der Horst (U.S.A.)
Irreversible inhibition of human cytomegalovirus replication by topoisomerase II inhibitor, etoposide: a new strategy for the treatment of human cytomegalovirus infection 17

B.E. Gilbert, P.R. Wyde, M.W. Ambrose, S.Z. Wilson and V. Knight (U.S.A.)
Further studies with short duration ribavirin aerosol for the treatment of influenza virus infection in mice and respiratory syncytial virus infection in cotton rats 33

J.-C. Lin, J. Reefschläger, G. Herrmann and J.S. Pagano (F.R.G., U.S.A.)
Structure-activity relationship between (*E*)-5-(2-bromovinyl)- and 5-vinyl-1-β-D-arabinofuranosyluracil (BV-araU, V-araU) in inhibition of Epstein-Barr virus replication 43

D. Kinchington, S. Galpin, J.W. Jaroszewski, K. Ghosh, C. Subasinghe and J.S. Cohen (Denmark, U.K., U.S.A.)
A comparison of gag, pol and rev antisense oligodeoxynucleotides as inhibitors of HIV-1 53

D.L. Barnard, J.H. Huffman, J.L.B. Morris, S.G. Wood, B.G. Hughes and R.W. Sidwell (U.S.A.)
Evaluation of the antiviral activity of anthraquinones, anthrones and anthraquinone derivatives against human cytomegalovirus 63

B. Lidin and E.W. Lamon (U.S.A.)
Differential effects of human recombinant interferons on the expression of two early gene products of Epstein-Barr virus 79

Letters to the Editor 91

No. 2

R.S. Ostrow, K.M. Forslund, R.C. McGlennen, D.P. Shaw, P.M. Schlievert, M.A. Ussery, J.W. Huggins and A.J. Faras (U.S.A.)
Ribavirin mitigates wart growth in rabbits at early stages of infection with cottontail rabbit papillomavirus 99

R.C. Gehrz, C.M. Curtis, M. Nelson and B.E. Kari (U.S.A.)
A combination of human cytomegalovirus (HCMV)-specific murine monoclonal antibodies exhibits synergistic antiviral activity in vitro 115

H. Machida, K. Ijichi and J. Takezawa (Japan)
Efficacy of oral treatment with BV-araU against cutaneous infection with herpes simplex type 1 in shaved mice 133

A.D. Idowu, E.B. Fraser-Smith, K.L. Poffenberger and R.C. Herman (U.S.A.)
Deletion of the herpes simplex virus type 1 ribonucleotide reductase gene alters virulence and latency in vivo 145

M.D. Trousdale, J.L. Law, F.A. Yarber, K.A. Watanabe and J.J. Fox (U.S.A.)
Evaluation of 1-(2′-deoxy-2′-fluoro-β-D-arabinofluranosyl)-5-ethyluracil in a rabbit model of herpetic keratitis 157

S.D., O'Marro, J.A. Armstrong, C. Asuncion, L. Gueverra and M. Ho (U.S.A.)
The effect of combinations of ampligen and zidovudine or dideoxyinosine against human immunodeficiency viruses in vitro 169

No. 3

J.W. Lown (Canada)
Lexitropsins in antiviral drug development (Mini-Review) 179

C. McGuigan, C. Nickson, T.J. O'Connor and D. Kinchington (U.K.)
Synthesis and anti-HIV activity of some novel lactyl and glycolyl phosphate derivatives 197

S.J. Sperber, B.V. Smith and F.G. Hayden (U.S.A.)
Serologic response and reactogenicity to booster immunization of healthy seropositive adults with live or inactivated varicella vaccine 213

J.D. Morrey, J.R. Mead, R.P. Warren, K.M. Okleberry, R.A. Burger and R.W. Sidwell (U.S.A.)
Elucidation of mode of retroviral-inhibitory effects of imexon through use of immune competent and severe combined immune deficiency (SCID) mice 223

M. Lebwohl, S. Sacks, M. Conant, J. Connor, J.M. Douglas, Jr., L. Eron, S. Marlowe, J. Mendelson, V. Chen, P. Bradstreet, D. Fedorczyk, J.R. Trout and T. Plasse (Canada, U.S.A.)
Recombinant alpha-2 interferon gel treatment of recurrent herpes genitalis 235

No. 4

Mini-Symposium – HIV Infections

M. Baba, S. Shigeta, H. Tanaka, T. Miyasaka, M. Ubasawa, K. Umezu, R.T. Walker, R. Pauwels and E. De Clercq (Belgium, Japan, U.K.)
Highly potent and selective inhibition of HIV-1 replication by 6-phenylthiouracil derivatives 245

J.A. Martin (U.K.)
Recent advances in the design of HIV proteinase inhibitors 265

G. Degols, J.-P. Leonetti, P. Milhaud, N. Mechti and B. Lebleu (France)
Antisense inhibitors of HIV: problems and perspectives 279

C.-F. Perno, R. Yarchoan, J. Balzarini, A. Bergamini, G. Milanese, R. Pauwels, E. De Clercq, G. Rocchi and R. Calio (Belgium, Italy, U.S.A.)
Different pattern of activity of inhibitors of the human immunodeficiency virus in

lymphocytes and monocyte/macrophages 289

R.T. Schooley (U.S.A.)
Challenges in the clinical development of antiretroviral drugs 305

Research Articles

C., McGuigan, R.N. Pathirana, N. Mahmood, K.G. Devine and A.J. Hay (U.K.)
Aryl phosphate derivatives of AZT retain activity against HIV1 in cell lines which are resistant to the action of AZT 311

K. Hayashi, H. Nishino, A. Niwayama, K. Shiraki and A. Hiramatsu (Japan)
Yucca leaf protein (YLP) stops the protein synthesis in HSV-infected cells and inhibits virus replication 323

D.J. Volsky, G. Li, N. Hamblet, B. Bolsky, R.S. Decker, M.G. Pellegrino and M.J. Potash (U.S.A.)
Evaluation of multiple parameters of HIV-1 replication cycle in testing of AIDS drugs in vitro 335
